The National Psoriasis Foundation (NPF) is seeking grant applications from researchers interested in conducting projects focused on psoriatic disease. The goal of this award is to support research with an aim focused on treatment durability, remission/relapse, prevention and personalized medicine.

I. **Budget:** Applicants may request up to $100,000 (direct costs only) per year.

II. **Project period:** The project period for this Request for Proposals is one year, from August 1, 2021 – July 31, 2022.

III. **Eligibility:** Applicants must hold a M.D., Ph.D. or equivalent. The applicant must be personally and actively responsible for the conduct of the proposed research, and eligible to apply as principal investigator for research grants under the guidelines of the applicant’s host institution. The applicant need not be a United States citizen and the research need not take place in the United States.

IV. **Important dates:** Applications must be received by **MONDAY, JAN. 13, 2021 at 5 P.M. PST.** Award notifications are anticipated by **JUNE 30, 2021.**

V. **Application Information:** Milestones to a Cure applications require a project proposal that includes specific aims, background and significance, preliminary data, and experimental design. The application along with all related forms can be found at [https://www.psoriasis.org/milestone-to-a-cure/](https://www.psoriasis.org/milestone-to-a-cure/).

Psoriatic disease doesn’t discriminate. The NPF advocates for improved access to care and meaningful access to treatments. We support research and clinical trials focused on addressing health disparities and treating BIPOC. Applications should take into consideration representation of diverse population in all aspects of research, study team, and study participants/enrollees.
